

# Company Profile and Capabilities

## ARS ENTERPRISES

**We work well under pressure.**

ARS was founded in 1971 as Autoclave Repair Specialists and incorporated in 1975. The company provides maintenance and repair services, sterilizing and cleaning equipment and water treatment systems. Its customers include the medical manufacturing industry, hospitals, laboratories, and food and beverage companies. In 1985, ARS acquired the exclusive rights to all Beverly Pacific (BP) sterilization products. The company's equipment and services have earned it an outstanding reputation.

Our philosophy is to provide very high quality services incorporating the best components available. The ARS team is also dedicated to the highest standards of workmanship. By so doing, our customers can achieve many years of reliable performance and an overall low cost of ownership. Our pride rests on our customers' satisfaction with the products we manufacture or distribute and the service we provide.

ARS is headquartered in an 11,000 square foot facility in Santa Fe Springs, California. It is licensed and regulated by the U.S. Food and Drug Administration and the California Department of Health Services. Licensure is predicated upon the company's continued adherence to current Good Manufacturing Practices as set forth in the Code of Federal Regulations.
